

= Tuition Refund Policy After Admission =

A. Cases Eligible for Tuition Refund

This policy applies to students who submit an application for withdrawal by the end of November of their second year.

Starting from the 4th month following the month in which the withdrawal procedures are completed, the remaining tuition balance will be refunded after deducting a 20% processing fee. The second-year "Facility and Utility Fees" and "Educational Materials and Extracurricular Activity Fees" are non-refundable.

Example: A student enrolled in the April 2024 intake (April 2024 – March 2026) applies for withdrawal at the end of July 2025 during their second year:

The 4th month after the end of July 2025 begins in November 2025. The remaining tuition balance from November onward—275,000 JPY—will be refunded after deducting the 20% processing fee.

B. Cases Ineligible for Tuition Refund

If a student withdraws within less than one year of admission, no refund will be issued regardless of the reason.

If a student requests withdrawal in December of their second year or later, they are not eligible for the refund mentioned in the example above.

In the case of expulsion (disciplinary dismissal), tuition and other paid miscellaneous expenses will not be refunded.

Second-year "Facility and Utility Fees" and "Educational Materials and Extracurricular Activity Fees" are non-refundable.

C. Other

*1 Any bank transfer fees associated with the refund shall be borne by the student.

*2 Disaster/Accident insurance fees cannot be refunded as they are part of a group enrollment policy.
